DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed March 03, 2006 have been fully considered but they are not persuasive. The applicant has amended claim 1 to include the claim language "...and wherein the first data structure, along with the one or more associated links are user definable..." the examiner has interpreted "user-definable" to mean that the links are customized to the particular user. In this case there are account links in both Kenna and Buist are associated with the particular customer (see Kenna, col. 3, lines 35+; and Buist figs. 5 and 6 col. 11, ll. 54+; and col. 12, lines 8+). In the interpretation of the examiner the customer has user-definable attributes that are associated with one or more accounts.

Regarding merging capabilities to combine two or more items (e.g. list information) is notoriously old and well known within the computer art. Thus it would be because both Kenna and Buist provide various information combined together, it would have been obvious for an artisan at the time of the invention to utilize the notoriously old and well known merging technology within the teaching of Kenna and Buist.

Thus the rejections using Kenna and Buist are maintained.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3624

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
